LONDON, March 15 .- A Papal brief, in answer to the address of the German Episopate, is published. It declares that the Vatican decrees contain nothing which alters the relations of the Pope and Roman Cathoics, or which can afford a pretext for further oppressing the Church and interfering with the election of the next Pope. It endorses the statement made by the bishops, that judgment as to the validity of a Papal election appertains to the Church alone, and concludes by urging the bishops to continue to resist and expose error.
